INTRODUCTION

I am a web developer skilled in both front-end and back-end technologies, particularly the MERN stack.I focus on creating responsive, user-friendly web applications, combining design with functionality to deliver seamless digital experiences.

SKILLS

Frontend Skills:HTML,CSS, Javascript,React

Backend Skills:Java, Javascript,Mongodb,mySQL,Nodejs, Express

Softskills: Communication

PROJECTS:

Car Sale System

- The Car Sale System automates the process of buying and selling vehicles, providing a seamless user experience.
- It features a searchable inventory, detailed car listings, and secure transaction handling.
- Built using the MERN stack, the system ensures efficient management and scalability for dealerships.

Income Expense tracker

- The Income Expense Tracker streamlines personal finance by tracking income and expenses effortlessly.Users can categorize transactions and generate financial reports with ease.
 - Built on the MERN stack, the app offers a secure and responsive experience.
-
